

Week Beginning 24.01 – home learning for Monday and Tuesday

Maths 2 star and 3 star – We are continuing to look at multiplication and division. For the Monday and Tuesday we will be focusing on the 8 times tables. Please see below for video link

Monday – multiply by 8 video <https://vimeo.com/480761211>

Tuesday – divide by 8 video <https://vimeo.com/480761847>

Maths 1 star – dividing by 5 and 10

Monday – dividing by 5 video <https://vimeo.com/498262138>

Tuesday – dividing by 10 video <https://vimeo.com/498262386>

English - Reading - Burns Night comprehension, pick the star you feel able to complete. Don't forget your daily reading with an adult for 10-15 minutes.

English – Writing – I have given you two different writing activities. These do not link with our writing in class due to where we are in our learning sequence. Please remember your punctuation, finger spaces and neat handwriting.

English – Spellings – we are looking at the prefixes –sub and –tele. Today I would like you to match the word to the definition. Then practice spelling them using rainbow writing or a word pyramid.

Science – Scrapyard Challenge – look through the powerpoint and watch the video clips (iron fillings and scrapyard magnet.) Then have a go at the scrapyard challenge, you could use a fridge magnet if you don't have a bar magnet at home.

P.E. - We are focusing on gymnastics this half term. I have given you a selection of gymnastic related challenges for you to complete. You could teach your mum or dad or sibling how to do a sitting straddle, pike or tuck shape.
