

School Subjects (Les Matières) Instructions (2)

This week I would like you to think about your school subject preferences. I have attached a copy of the subjects ('**Les Matières (2)**') in French and English.

- Look at the **Les Matières (2)** sheet and decide how you feel about each of the school subjects shown.
- Show your feelings on the second sheet by drawing symbols to represent some of the subjects in the boxes and adding a short sentence in French expressing your opinions. There are more subjects than boxes, so you won't need to do them all.

For example, I'm not a big fan of science so I would express my feelings for it like this:

- J'adore (I love)

- J'aime (I like)

- Je n'aime pas (I don't like)

- Je déteste (I hate)
